PERSONAL PROJECTS

Created and managed an online blog (10/2020 - Present)

- What if you could make your own confessions online without revealing your identity? That's what this blog is all about.

Created a web page to automatically translate plain text to Morse code (08/2020 - Present)

- Encode text characters as standardized sequences of two different signal durations, called dots and dashes.
- The interface provides the user with a button controls to play (as a sound) or flash the Morse code.

Launched a Chrome extension that helps generate strong / secure passwords (11/2019 - Present)

- A chrome extension that generates locally (offline) strong passwords for your daily usage and keep your online presence secure.
