PERSONAL PROJECTS

Created and managed an online blog (10/2020 - Present)
- ▫ What if you could make your own confessions online without revealing your identity? That's what this blog is all about.

Created a web application that serves to translate plain text to Morse code (08/2020 - Present)
- ▫ It encodes text characters as standardized sequences of two different signal durations, called dots and dashes.
- ▫ Has an interface that provides the user with button controls to play (as a sound) or flash the Morse code as well.

Launched a browser extension that helps generate strong / secure passwords (11/2019 - Present)
- ▫ A Google Chrome extension that generates locally (offline) strong passwords for daily usage and keeps the user's online presence secure.
